VR RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

June 30, 2020

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

VR Resources Ltd. (the “Company”) was incorporated on May 7, 2015, by Certificate of Incorporation issued pursuant to the provisions of the *Business Corporations Act* (Alberta) and continued in British Columbia. The Company’s head office address is at 700 West Pender Street, Suite 1750, Vancouver, BC, V6C 1G8. The Company’s registered and records office address is at 550 Burrard Street, Suite 2300, Vancouver, BC, V6E 2B5. To date, the Company has not earned operating revenue.

As at June 30, 2020, the Company has a working capital of \$3,373,890 and an accumulated deficit of \$8,757,128. The Company expects to incur further losses in the development of its business. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

The Company is in the process of exploring its own mineral exploration properties and evaluating new properties for potential acquisition. The Company has not yet determined whether its properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These condensed consolidated interim financial statements have been prepared based on accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal courses of business rather than through a process of forced liquidation. These condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset and amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

In addition, the COVID-19 pandemic has created a dramatic slowdown in the global economy. The duration of the COVID-19 outbreak and the resultant travel restrictions, social distancing, Government response actions, business closures and business disruptions, can all have an impact on the Company’s operations and access to capital. There can be no assurance that the Company will not be further impacted by adverse consequences that may be brought about by the COVID-19 pandemic on global financial markets which may affect resource prices, share prices and financial liquidity and thereby severely limit the financing capital available in the mineral exploration sector.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of condensed consolidated interim financial statements, including International Accounting Standard (“IAS”) 34, “Interim Financial Reporting”. The condensed consolidated interim financial statements should be read in conjunction with the annual financial statements for the year ended March 31, 2020, which have been prepared in accordance with IFRS as issued by the IASB. In the opinion of management, all adjustments considered necessary for fair presentation of the Company’s financial position, results of operations and cash flows have been included. Operating results for the three-month period ended June 30, 2020 are not necessarily indicative of the results that may be expected for the year ending March 31, 2021.

VR RESOURCES LTD.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

(Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit and loss, which are stated at their fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting and are presented in Canadian dollars.

These condensed consolidated interim financial statements of the Company include the balances of its subsidiaries, Renntiger Resources Ltd. and Renntiger USA Ltd., which are wholly owned subsidiaries.

The Company consolidates its subsidiaries on the basis that it controls the subsidiaries through its ability to govern its financial and operating policies.

New standards and interpretations adopted

Certain new standards, interpretations, amendments and improvements to existing standards were issued by IASB or IFRIC that are mandatory for future accounting periods. The following have been adopted by the Company:

- IFRS 16 *Leases*: New standard to establish principles for recognition, measurement, presentation, and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019. The adoption of this new standards did not have a significant impact on the Company's condensed consolidated interim financial statements.
- New Interpretation IFRIC 23 - *Uncertainty over Income Tax Treatments*: On June 7, 2017, the IASB issued IFRIC Interpretation 23 – Uncertainty over Income Tax Treatments (“IFRIC 23”). IFRIC 23 provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. There was no impact to the Company's condensed consolidated interim financial statements as a result of adopting this new standard.

3. CASH AND CASH EQUIVALENTS

The Company's cash and cash equivalents consist of the following:

	June 30, 2020	March 31, 2020
Cash held in CAD	\$ 2,226,750	\$ 225,489
Cash equivalents in CAD	700,000	700,000
Cash held in USD	409,146	543,162
Total	\$ 3,335,896	\$ 1,468,651

4. RECEIVABLES

Receivables consist of GST receivable of \$12,897 (March 31, 2020 - \$4,546), other receivable of \$9,672 (March 31, 2020 - \$14,378), relating to accrued interest on term deposits and reclamation bond on the Junction property of \$26,464 (March 31, 2020 - \$27,124). The Company does not have any significant balances that are past due. All receivables are current, and the Company does not have any allowance for doubtful accounts as at March 31, 2020 and 2019. Due to their short-term maturities, the fair value of receivables approximates their carrying value.

6. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all its exploration and evaluation assets and, to the best of its knowledge, title to all of its properties are in good standing.

a) Bonita – Nevada, USA

The Company acquired the Bonita copper-gold property in Humboldt County, Nevada, USA, through staking. Upon initiation of a diamond drill program within the area of interest (completed during the year ended March 31, 2018), the Company met its obligation to issue an additional 450,000 common shares to the original finder, which were issued with a fair value of \$148,500.

The Company has a 100% interest in the claims, free and clear of any interests or royalties.

b) Big Ten Project – Nevada, USA

The principal properties are Danbo, Amsel and Clipper and are summarized below.

Danbo Property

The Company owns a 100% interest in certain unpatented mining claims located in Nye County, Nevada, USA. As consideration, the Company issued 1,500,000 common shares of the Company with a fair value of \$315,000, during the year ended March 31, 2017. The property is also subject to a 3% net smelter returns royalty.

Amsel Property

The Company entered into an option to purchase agreement in 2018 to earn a 100% interest in the Amsel property located in Nye County, Nevada, USA. To acquire the Amsel property the Company will pay US\$60,000 and issue 100,000 common shares as follows:

- 50,000 common shares on closing (issued, fair value of \$19,750);
- US\$10,000 on closing (paid);
- 50,000 common shares on the first business day following commencement of a drill program on the property; and

(Expressed in Canadian Dollars)

6. EXPLORATION AND EVALUATION ASSETS (cont'd...)

- US\$50,000 on the first business day following commencement of a drill program on the property.

The property is subject to a 2% net smelter returns royalty and the Company has the right to buy down up to one-half of the royalty for US\$500,000 per half a percent.

Clipper Property

The Company acquired the Clipper property by staking and comprises of 17 claims located approximately 4 km southeast along trend from the Danbo property.

c) Junction – Nevada, USA

The Company had entered into an option to purchase agreement to earn a 100% interest in the Junction copper-silver-gold property located in Humboldt County, Nevada, USA. To acquire the Junction property the Company paid \$12,835 (US\$10,000), and issued 100,000 common shares as follows:

- 50,000 common shares on closing (issued during year ended March 31, 2018) with a fair value of \$16,250; and
- 50,000 common shares if the Company completes a first-pass drill program on the property (issued, fair value of \$9,750).

The Company currently owns the property outright. Going forward, the Company is obliged to:

- Issue 250,000 common shares to the vendor, if and when the Company completes and files a NI 43-101 report containing a mineral resource estimate within the property.

The property is subject to a 3% net smelter returns royalty on certain claims, and the Company has the right to buy down up to one-half of the royalty for US\$500,000 per half a percent.

The Company entered into an option to purchase agreement to earn a 100% interest in the Wedding Ring property located in Humboldt County, Nevada, USA. To acquire the Wedding Ring property, which is an extension of claims adjacent to the Junction claims, the Company paid US\$6,000, and issued 100,000 common shares as follows:

- 50,000 common shares on closing (issued, fair value of \$14,500); and
- 50,000 common shares due within 5 business days of the Company commencing a drill program on the property (issued, fair value of \$11,000).

The Company currently owns a 100% interest in the property which is subject to a 3% net smelter returns royalty. The Company has the right to buy down 1.5% of the royalty for US\$1,500,000.

During the year end March 31, 2020, the Company determined that the carrying value of its interest in the Junction property was impaired because no additional expenditures are planned for the property. The Company incurred acquisition and exploration expenditures on the property of \$801,453 and accordingly wrote-off these costs as impairment of exploration and evaluation assets.

d) New Boston – Nevada, USA

The Company had entered into an option to purchase agreement to earn a 100% interest in the New Boston copper-molybdenum property located in Mineral County, Nevada, USA, in September 2017. To acquire the New Boston property, the Company paid \$12,835 (US\$10,000) and will issue 100,000 common shares as follows:

6. EXPLORATION AND EVALUATION ASSETS (cont'd...)

- 50,000 common shares on closing (issued during the year ended March 31, 2018) with a fair value of \$16,250; and
- 50,000 common shares if the Company completes a first-pass drill program on the property, with the option to return the property to the vendor with no obligation to issue the common shares.

During the year end March 31, 2020, the Company determined that the carrying value of its interest in the New Boston property was impaired because no additional expenditures, at this time, are planned for the property. The Company incurred acquisition and land maintenance expenditures on the property of \$84,454 and accordingly wrote-off these costs as impairment of exploration and evaluation assets.

e) Ranoke Property, Ontario, Canada

The Company acquired the Ranoke property directly by staking in April, 2019. It consists of 365 claims in one contiguous block. The property is owned 100% by the Company, free and clear of any interests or royalties. The claims are in good standing through April, 2022.

f) Hecla-Kilmer Property, Ontario, Canada

During the period ended June 30, 2020 the Company entered into an option to purchase agreement to earn a 100% interest in the Hecla-Kilmer property located in Ontario, Canada. To acquire the property, the Company will pay \$15,000 (paid) and issue 75,000 common shares(issued). If the Company commences a drill program an additional payment of \$75,000 and the issuance of additional 100,000 common shares are required.

The property is subject to a 3% net smelter returns royalty and the Company has the right to buy down 1.5% of the royalty for \$500,000 for each 0.5% for a maximum cost of \$1,500,000.

g) Reveille Property, Nevada, U.S.A.

During the period ended June 30, 2020 the Company entered into an option to purchase agreement to earn a 100% interest in the Reveille property located in Nevada, U.S.A. To acquire the property, the Company will pay US\$20,000 (paid) and issue 100,000 common shares (issued). If the Company commences a drill program an additional payment of US\$50,000 and the issuance of additional 100,000 common shares are required.

The property is subject to a 3% net smelter returns royalty and the Company has the right to buy down 1.5% of the royalty for \$500,000 for each 0.5% for a maximum cost of \$1,500,000.

12. CAPITAL MANAGEMENT

The Company defines capital that it manages as shareholders' equity.

The Company manages its capital structure and adjusts it, based on the funds available to the Company, in order to support the acquisition, exploration and development of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage as such the Company has historically relied on the equity financing to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital restrictions. There were no changes to the Company's approach to capital management during the period.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data

The fair value of cash and cash equivalents is measured at Level 1 of the fair value hierarchy. The carrying value of receivables, and accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and receivables. Management believes that the credit risk concentration with respect to receivables is remote as they are due from the Government of Canada. The Company's cash and cash equivalents and is deposited in accounts held at a large financial institution in Canada. As such, the Company believes the credit risk with cash and cash equivalents is remote. Receivables comprise input tax receivables due from the Government of Canada. The Company considers the credit risk of receivables to be low.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As of June 30, 2020, the Company had a cash balance of \$3,335,896 to settle current liabilities of \$31,637. All the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company intends to raise additional equity financing in the coming fiscal year to meet its obligations.

Interest rate risk

The Company has cash and cash equivalents balances and no interest-bearing debt. The Company's cash is held in accounts with floating interest rates. The Company is significantly exposed to interest rate risk.

Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to assets and liabilities that are denominated in USD. Amounts exposed to foreign currency risk include cash of US\$300,224,043 as of June 30, 2020 (Note 3). A 10% fluctuation in the USD against the CAD would result in an approximate \$42,000 change in profit or loss for the period.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's profit or loss and the ability to obtain financing, due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.
