The Company has issued 5,982,665 units (the “**Units**”) at a price of \$0.15 per Unit for gross proceeds of \$897,400. Each Unit consists of one common share (“**Common Share**”) of the Company, and one-half of one Common Share purchase warrant (each whole Common Share purchase warrant, a “**Warrant**”). Each Warrant entitles the holder to acquire one additional Common Share at an exercise price of \$0.20 per Common Share until September 27, 2025.

The Company paid cash fees totaling **\$30,999** in connection with certain placements into the Financing.

The securities that were issued under the Financing are subject to a statutory four month and one day hold period expiring on July 28, 2024.

An Insider of the Company participated in the Financing for an aggregate amount of 333,333 units. Such participation is considered a related party transaction within the meaning of Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* (“**MI 61-101**”). In completing such transaction, VR relied on the applicable exemptions from the valuation requirement and minority security holder approval requirements available under Sections 5.5(a) and 5.7(a) of MI 61-101, respectively, on the basis that the participation in the Financing by the Insider did not exceed 25% of the Company's market capitalization.

Use of Proceeds Going Forward

VR will use the net proceeds of the Financing for its mineral exploration business, and more specifically towards the pending drill program planned for the polymetallic copper-moly-silver porphyry-skarn system on its New Boston property located in west-central Nevada.
